PROJECTS

EXAMFACTOR

A transformational learning resource integrating content of the highest quality with state-of-the-art technology developed by our team of experts.

FEATURES :

- A wide range of courses covering different subjects for adaptive learning.
- Practice exercises to help students track their progress, identify their strengths and weaknesses, and improve their learning outcomes.

TECH STACK : JAVA 17 | SPRING BOOT | COUCHBASE DB | RABBIT MQ | OAUTH2/OIDC - KEYCLOCK | ELASTIC SEARCH | SPRING DATA JPA | SPRING CLOUD

AREA OF RESPONSIBILITY :

- Working on backend architecture and APIs for secure document storage and retrieval using Couchbase DB.
- Implementing backend functionality for payment processing through CC Avenue, and handling success/failure responses.

Shop2Home API

LINKS :

This REST API was created by me individually for an ECommerce Project. This API handles all of the basic CRUD functions and implements my logic in it including user validation at each stage.

FEATURES :

- Role of the entire application's administrator.
- The user can make a purchase, add product to cart, payment etc.

TECH STACK : CORE-JAVA | SPRING BOOT | MYSQL | SWAGGER | LOMBOK

AREA OF RESPONSIBILITY :

- The admin has access to information on various customers, products and orders, etc.
- Only logged-in users with active session tokens can add, update details or, add products, and orders from the main database.

It is an individual project created by me in 10 days.

WORK EXPERIENCE

ABP LEARNING TECHNOLOGIES PRIVATE LIMITED (ABP GROUP)

APR 2023 - PRESENT

Key responsibilities :

- Design and develop RESTful APIs and also develop and maintain database schemas.
- Implementing secure authentication and authorization mechanism that protect the website's sensitive data and functionalities.
- Implementing server-side logic, such as data validation, processing user inputs, and handling business logic.

ECLERX SERVICES LTD.

May 2018 - April 2019

Key responsibilities :

- Working on salesforce environment to convert leads and opportunities.
- Work closely with other staff, such as project managers, other developers, and systems analysts.
- Consult with clients and coworkers about each project and also used to make SOP for each project
